INTEGRATED ACM COMPETITIONS WEBSITE

WHY?

The fragmentation of ACM competition websites, which resulted in a non-efficient and sometimes confusing news distribution for teachers.

HOW?

Analysis of international world-wide competitions and their websites.

Division of competitions into three age groups of contestants:
primary school competitions (K-8),
secondary school competitions (K9 – K12),
university competitions.

Customization of a theme and implementation of our own modules.
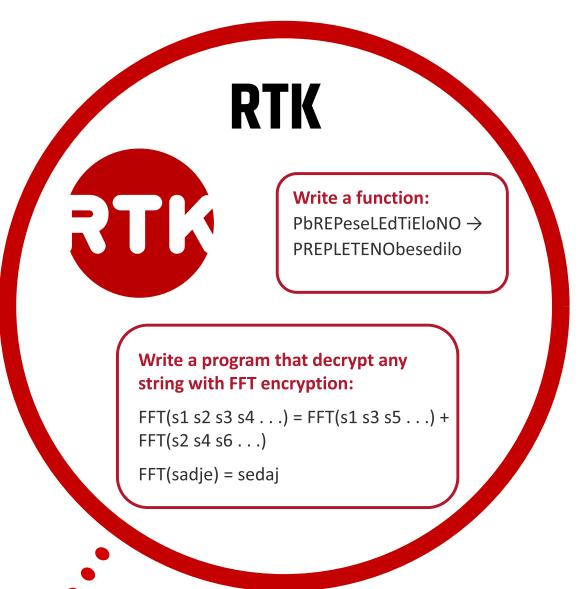

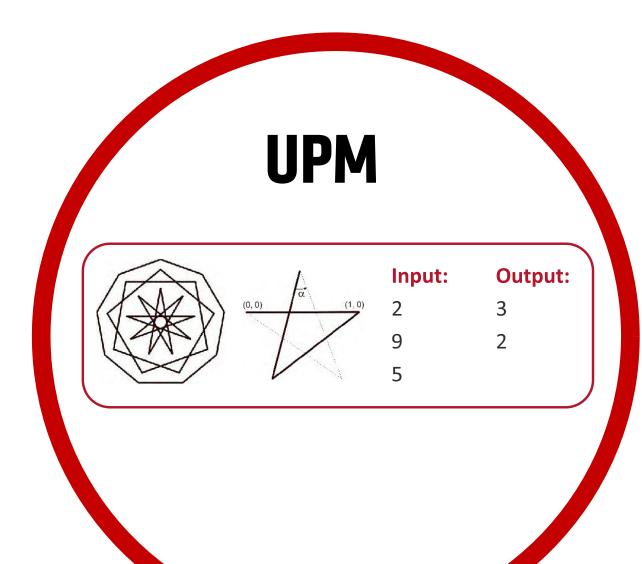

Open source CMS Drupal.

CERC

Central European Regional Contest 2011, Prague, Czech Republic

Welcome

The Central European Regional Contest is one of the regional contests to select the teams that will represent our region in the finals of the 36th ACM International Collegiate Programming Contest. The ACM is a programming world championship for college students. Started in 1970 as a local contest in Texas, it is spanning the whole world now.
Additional informations are in fact sheet.

The Central European Programming Contest 2011 is organized by the Czech Technical University in Prague, Faculty of Electrical Engineering, Department of Computer Science and Engineering. The CERC was held on November 11-13, 2011. More than 70 teams from seven countries (Austria, Croatia, Czech Republic, Hungary, Poland, Slovakia and Slovenia) are expected to compete.

Good luck to all the teams!

Final standings, homes, problems, official solutions, submitted solutions, tasks from Cipher Contest, notes you can find in CONTEST tab.

ACM-ICPC World Finals will be held May 14-18, 2012, in Warsaw, Poland, hosted b...
